Rev. Robert Campbell,

Montreal.

My dear Dr. Campbell:

To my great surprise I was appointed by the last General Assembly Convener of a Committee to look into the affairs of Morin College, Quebec. It seems to me very doubtful whether I can fulfil these duties adequately in view of the multitude of my other engagements, but I have received a copy of the will which I have carefully read. I understand that you are one of the Governors of the College. Could you give me some outline of the history of the College, its present position and the work it is doing ?

I may say that I have a letter from Rev. Mr. McArthur of Quebec calling my attention to the fact that I was appointed Chairman of the Committee to look into the matter.

With kind regards, I am,

Yours sincerely,

President.

My dear Colonel Cameron:

I have overlooked, I am sorry to say, your letter which accompanied the book-marker for the Bible. Will you be kind enough to thank the ladies of the Convent of St. John the Divine for the gift which I am sure will be greatly appreciated by the Sermons Committee of the University ? I shall be glad to lay the letters before the Committee at its next meeting.

Yours sincerely,

President.

My dear Colonel Cameron:

I am afraid that it is almost impossible to counteract the practice which seems to have grown up so gradually and under such constraining influences as this to which you refer. Although I myself in public always speak of the Front Lawn I do not think that a reference to it in an address would really put an end to a habit of speech. I have never even called the back lawn a campus, though possibly your suggestion might be practicable. Certainly it will get a new dignity when the Honor Role is erected under which the circus of our men will have to pass chiefly to their athletic exercises and daily sports. Though at first I hesitated as to the site, the more I think of it the more it appeals to me as being as central a place as can be found.

I am glad to hear from Colonel Parsons that your work is nearly over and that you will be back soon.

Yours sincerely,

President.

year. I enlisted from Toronto University on Nov. 27th. 1915. I had been three weeks opening the term, and, was in the Medical Branch.

It would mean a great deal to me, if I could enlist after Christmas and be allowed to finish my first year in Medicine. At least, I could make an attempt to obtain my year. This means a great deal to me as I have lost three years in education due to war.

My dear Colonel Cameron:

Many thanks for your two very apt quotations from Pericles. They certainly fit into the present position when there are so many unknown heroes who will get their recognition only by the record of their deeds but vicariously to glorified by others whose deeds have been observed.

With kind regards, I am,

Sir Robert A. Falconer,
President, University of Toronto.

Dear Sir Robert,-

I have recently returned from a tour of military duty in China, and wish to bring to your attention, a condition of affairs which exists there, and which, I think, is of considerable interest to Canadian Educationalists.

Previous to the War, British residents in Japan, China, the Phillipines, Strait Settlements, and India, had been in the habit of sending their families back to England to be educated. Since the outbreak of the War, owing to the restrictions on passenger service, due to the submarine campaign, this has been impossible, and there are now quite a number of boys and girls, and young men and women of British parentage in the cities of the East, who are not receiving the education which their parents desire them to have. A number of them have been brought to American institutions, especially to those on the Pacific Coast.

These people have a very hazy idea of Canadian Educational matters, and do not know that they can receive in Canada, the very best education, and that, under the British Flag. They would prefer to come here if the matter were properly explained to them, and as long as the Pacific remains open, increasingly large numbers of these young people will come to this Continent for their education.

This matter may not interest you, as President of the University, but it is suggested that it might be of considerable interest to the Principals of Primary and Preparatory Schools, in and about Toronto. I have brought the matter to your attention as the President of my Alma Mater, so that if you consider the matter warrants any ~~action~~, same may be taken.

I would suggest that if you wish to write to anyone in the East in regard to this matter, that Dr. J.W. Ross, Canadian Trade Commissioner, Shanghai, China, would put you in possession of all the necessary details. British

Vice-Consuls in such places as Tokio, Yokohama, Teintsin, Manilla, Peking, Singapore, and the British authorities at Hong Kong and the cities of India, would be very glad to distribute information in regard to Canadian Educational facilities.

Yours very sincerely,

Bcau A. Cannon

Rev. E. Crummy, D.D.,

Moose Jaw, Sask.

My dear Dr. Crummy:

I have read with very much appreciation your letter in support of the candidature of Professor Jolliffe for the Chair of Latin in University College. I have had a very large number of highly appreciative letters, all of which lay stress upon his qualities as a man and teacher. I am sure that they are of a high order. It is necessary, however, for us to get the best men possible before we make our selection so that we are still considering very carefully, and I do not know what we shall do, but Professor Jolliffe's name will receive full consideration.

With kind regards, I am,

Yours sincerely,

President.
